### CONGRESS WAR ORDER READY

House Rushes First Work by Re-electing Champ Clark Speaker—Senate Waits.

### WILSON SPEAKS LATE TODAY

#### BULLETIN.

Washington, April 2.—President Wilson will address a joint session of congress at 8 o'clock this evening.

Majority Leader Martin announced to the senate that house leaders had informed him the organization would certainly be complete by 5:30 o'clock.

President Wilson's address immediately will be sent to all foreign embassies and legations here and will be telegraphed to American diplomats abroad. It was acknowledged today that foreign governments on receipt of it may interpret it as they think best.

[By Associated Press Leased Wire.] Washington, April 2.—Speaker Clark was re-elected today by a vote of 217 to 205 over his republican opponent, Representative Mann, as the first step in organization of the house of representatives—the necessary preliminary to the delivery of President Wilson's war address.

With the re-election of Speaker Clark it seemed certain that President Wilson would deliver his address late this afternoon.

It is expected on every hand that he will ask congress to declare that a state of war exists between the United States and Germany.

This seemed so certain that Chairman Flood of the house foreign affairs committee, the administration spokesman there, prepared a resolution to declare a state of war and authorize the president to act.

War Resolution Ready. A resolution declaring that a state of war exists between the United States and Germany was prepared today for submission to the house by Representative Flood, chairman of the foreign affairs committee. It would authorize the president to carry on war against Germany.

The resolution follows: "Whereas, the recent course of the imperial German government is in fact nothing less than war against the government and people of the United States;

"Resolved, by the senate and house of representatives of the United States of America, in congress assembled, that the state of belligerence between the United States and the imperial German government, which has thus been thrust upon the United States is hereby formally declared, and

"That the president be and he is hereby authorized to take immediate steps not only to put the country in thro state of defense but also to exert all of its power and employ all of its resources to carry on war against the imperial German government and to bring the conflict to a successful termination.

All of the democrats present and four of the so-called independents, Martin, progressive-protectionist, of Louisiana; Schall, progressive, of Minnesota; London, socialist, of New York; and Randall, prohibitionist, of California, voted for Clark.

Two republicans, Gardner and Fuller of Massachusetts, voted for Lenroot.

Dallinger of Massachusetts and Gray of New Jersey voted for Gillette and James of Michigan and Haskell of New York, republicans, voted present.

Cheers for Clark. Former Speaker of the Illinois was the only republican who voted for Clark. The speaker was escorted to the chair by a committee of which Representative Mann was the chairman. He was greeted with applause from both sides of the chamber. He said: "I fully appreciate the fact that it will be exceedingly difficult to discharge the duties of the speaker in this house. It will be almost impossible to do so without the hearty co-operation of the members with regard to party affiliations. I will do my utmost endeavor to be absolutely fair and I invoke the aid of all the members in doing so.

### WOMAN CONGRESSMAN SEATED WITH CEREMONY

[By Associated Press Leased Wire.] Washington, April 2.—Representative Jeannette Rankin of Montana, first woman member of congress, took her seat in the house today after an elaborate prelude of ceremonies in which woman suffrage predominated.

The principal occasion was a breakfast for the honorable Jeannette Rankin of Montana under the auspices of suffragists of all factions.

Mrs. Carrie Chapman Catt, president of the National American Woman Suffrage association, sat at Miss Rankin's right and at her left was Miss Alice Paul, chairman of the national women's party.

"The day of our deliverance is at hand," was the keynote of Mrs. Catt's speech. Miss Rankin in reply said:

"I want you to know how much I feel this responsibility. There will be many times when I shall make mistakes and it means a great deal to me to know that I have your encouragement and support on the right path and she replied 'presently, blushing furiously.

After the breakfast, the speaker and her entourage went to the house of representatives. The speaker's entrance to the house was signaled by uproarious cheering and applause.

### SENATOR LAYS PACIFIST LOW

Lodge of Massachusetts Resents Being Called Coward, Defends Self When Struck.

### WILD DAY IN WASHINGTON

#### BULLETIN.

[By Associated Press Leased Wire.] Washington, April 2.—A personal encounter between Senator Lodge of Massachusetts, and Alexander Bannwart of Dorchester, Mass., in which the senator knocked his opponent down, occurred today in the corridors of the capitol.

Bannwart, with the Rev. Paul Drake of Christ church, Dorchester, and several other men and women of pacifist delegations called Senator Lodge to the door of his committee room and asked him to vote against a declaration of war with Germany.

Senator Lodge replied that if President Wilson asked for such a declaration he certainly would support it. "That is cowardice," retorted one of the group.

"National degeneracy is worse than cowardice," replied the Massachusetts senator.

"You are a coward," said Bannwart. "You are a liar," retorted Senator Lodge.

Pacifist Strikes Senator. Bannwart advanced and struck the senator, who then, despite his 60 years, launched a blow that sent Bannwart sprawling on the hard tiles of the corridor.

Bannwart and several of his friends were taken in charge by the pacifist police.

Pacifist Severely Fumigated. Bannwart took the capitol police to task for not arresting and punishing the senator who struck the first blow.

After Senator Lodge finished with the pacifist, David B. Herman of this city, pummeled Bannwart, according to spectators, cutting several gashes in the forehead and spreading blood over his face. Bannwart was taken to a police station with directions that a charge of assault on Senator Lodge be preferred against him. The others in the group with him were allowed to go.

Lodge Is Confronted. Senator Lodge appeared on the floor when the senate met and apparently was no worse for his encounter. Scores of senators shook his hand.

Pacifist headquarters gave out a statement about the affair, in which it was claimed Senator Lodge was the aggressor but was attacked by Bannwart and the pacifist party.

Late this afternoon Mrs. Glendower Evans of Boston deposited a \$100 bill in a hall for Bannwart's release.

About one thousand of the pacifists assembled on the steps of the main entrance at the capitol and became so active that squads of police drove them to the plaza while the pilgrims jeered and hooted. The pacifists shouted replies and there was no mistaking foreign accents in the words of some of the shouters. There were a few clashes but nothing in the nature of disorder.

David Starr Jordan of Leland Stanford university, one of the leading pacifists, tried to see President Wilson this morning but the president was busy.

Delegations of pacifists held "war protest" meetings in their respective senators' offices.

One such delegation was rebuffed Senator Wadsworth when one of several speakers said America had never been a "false friend" to Germany.

"That's calling my country a pretty harsh name. I don't care to hear any more of it," said Senator Wadsworth.

Wear White Armbands. The delegation of pacifists assembled at headquarters of the Emergency Peace federation and were furnished with white armbands bearing in large black letters the inscription, "Keep out war."

They were supplied also with cards to admit them to the business and mass meetings, and the city addresses of their senators and representatives.

The delegates were instructed to spend the morning calling upon their legislative representatives and urge them to take no action that would lead to hostilities.

The instruction list handed to each delegate called attention to the fact that both houses would convene at noon and that they "might be interested in witnessing the opening." This was taken to mean that the pacifists were expected to be at the capitol at 12 o'clock.

Anti-Pacifist Active. Anti-pacifist said they too would be at the capitol whenever the pacifists planned to be there. They had instructions similar to those of the pacifists and long before the time for the opening of congress the telephone bells of senators and representatives in their homes and at their offices were tinkling with calls from both factions.

### BRITISH CAPTURE THREE MORE TOWNS

[By Associated Press Leased Wire.] London, April 2, 3:50 p. m.—The British have captured Cremona after a desperate defense by the German. Reuters' correspondent at British headquarters reports.

The towns of Longatta and Dolgny also have been captured by the British who took some prisoners.

Turks Lose 8,000. London, April 2, 4 p. m.—Andrew Bonar Law, member of the British war council, today stated in the house of commons that the total casualties suffered by the Turks in the battle of Gaza, in Palestine, were 8,000. The total number of British killed, he added, was less than 400.

German Admit Withdrawal. Berlin, April 2, by wireless.—Fighting begun yesterday between the British and German forces south of Arras, on the road to Cambrai and on both fronts of the river Somme west of St. Quentin, were further developed this morning, says the official statement issued today by the German army headquarters.

The British forces, the announcement adds, suffered considerable losses and only gained ground where the German troops gave way under orders.

On both sides of the Oise-Aisne canal, and on the highlands of Vimy, it is announced, the French made some advance under heavy losses.

### COKE PRICE BOOSTED

The price of coke was increased to \$12.5 a ton in Aurora Saturday. It has been selling for \$7.25 a ton. Only a few of the dealers have any coke for sale. A shortage is given as the reason for the increase.

### BERNSTEIN-CRYER

Miss Ruth Cryer, daughter of Mr. and Mrs. Will Cryer, and Oscar Bernstein, proprietor of the Fox Street Shoe Market, were married March 30 in Chicago. They have returned to Aurora and are residing in apartments in New York street.

### CITIZENS ENLISTING

[By Associated Press Leased Wire.] Calumet, Mich., April 2.—Four military units, embracing cavalry, automobile, motorcycle and hospital corps, were organized here last night at a mass meeting. Military training of citizens is to begin at once.

Miners Celebrate. [By Associated Press Leased Wire.] Pottsville, Pa., April 2.—Work in the anthracite coal mines was suspended today in observance of the eighth anniversary of the granting of the eight hour day. Celebrations were held in many cities and towns.

Dillenburg No Better.—Henry Dillenburg, who has been ill for the past two months suffering from heart trouble and who was removed Wednesday to the St. Charles hospital in New York, was said today. He has to be kept very quiet and his friends are not allowed to see him.

Representatives in their homes and at their offices were tinkling with calls from both factions.

Louis P. Lochner was directing the activities of the pacifists.

"If we should fail to prevent war," he said, "we will continue to work for peace just as certain people in England have done all during this war in Europe."

### RECRUITING TOO FAST TO SECURE EQUIPMENT

[By Associated Press Leased Wire.] Chicago, April 2.—On orders from Washington, General Barry, commanding the central department, U. S. A., today instructed that a temporary halt be called in recruiting for national guard regiments.

At the army of the first regiment recruiting conference, held yesterday, General Barry ordered that no more recruits be accepted. Among national guard officers it was said that inability to equip the recruits as fast as they enlisted had been noted. Captain Fitch, aid to General Barry, said that the interruption doubtless would be brief.

### INTERNAL STRIFE MENACE TO MEXICO

[By Associated Press Leased Wire.] Laredo, Tex., April 2.—Internal politics used as a lever in an effort to regulate Mexico's customs in international affairs have brought about a situation of the utmost gravity in that republic, according to travelers just arrived from the Mexican capital.

These travelers say the constitutional party, now holding the reins of government, is dividing into a so-called "civil" group and a military party embracing many of the chiefs of the army.

Tremendous pressure is being brought to bear on General Carranza by each party but the president, who is self-willed, either, it is known he desires to curb the undue activities of the military.

Oppose German Alliance. The "civil" party, these men say, was strongly opposed to any alliance with Germany against the United States and is standing firm for a policy of neutrality in the event of the entry of the United States into the European conflict. The military party, according to these stories, is strongly pro-German and advocates the entry of Mexico into hostilities against its northern neighbor.

The reports brought from Mexico City assert that German influence and money have been active among certain of the military party and that certain members have in contemplation of the border states for an invasion of the United States.

United States army headquarters is making the first active hostile move.

### UNIVERSAL MILITARY TRAINING BILL READY

[By Associated Press Leased Wire.] Washington, April 2.—National defense measures and bills for patriotic purposes predominated today in congress.

One was by Representative Kahn of Kansas to provide for universal military training for men between 15 and 22.

A resolution asking the president to designate June 14, the 104th anniversary of the birth of the American flag, as a day of national observance, was introduced by Representative Siegel of New York.

A bill proposing the sale of postal savings bonds in denominations from one to one hundred dollars, introduced by Representative Howard of Georgia, is designed to enable patriotic citizens to take a stake in the government.

The sundry civil and general deficiency appropriation bills were introduced.

### BUTTER UP TWO CENTS

Butter advanced two cents a pound in the Aurora stores today. It is now selling for 47 cents. The price of butter had not changed for nearly a month, holding about 45 cents a pound.

Flour did not make its expected advance today although the wholesale market is holding firm. There was no change in food commodities.

### TRUCE IN MEXICO

[By Associated Press Leased Wire.] Juarez, Mex., April 2.—A truce has been arranged between Villa and General Murguilla of the de facto commander, according to a dispatch from Chihuahua City. According to this dispatch, who was in the state capital when the fighting occurred, Carlos Ketelsen, a leading German resident of Chihuahua City went to Villa outside of the city with a proposal to cease his attack upon the city.

Until the United States declared war upon Germany, when both factions would unite against the United States, the refugees said.

Take College War Course. [By Associated Press Leased Wire.] Bloomington, Ind., April 2.—Alumni and students of Indiana university are being catalogued as to their fitness for special services to the government. More than 250 girls at the university have signed to take a course in Red Cross work and the men are organizing a battery and an infantry company.

### STRIKE CUTS MILK SUPPLY

Big Rock Farmers Refuse to Pay the Increase Demanded by Haulers.

### SHIP TO CHICAGO, THREAT

The newly organized Big Rock Milk Producers' Protective association has refused to pay the increased price for hauling, demanded by teamsters and chauffeurs, who bring the product to Aurora dairies. The Fred C. Young company, getting most of its supply from Big Rock, received milk yesterday from only six dairies. This number was cut to four, it was said today.

Following notice that dairies had increased the price of milk to 10 cents the quart April 1, the milk haulers served notice of a demand for 25 cents the hundred weight for hauling. The state had been 15 cents in the summer and 20 cents in winter.

At a meeting held last Wednesday the Big Rock milk producers formed a protective association with the following officers:

President—Erick Nelson. Vice president—Frank Pierce, Aurora. Secretary—Clayton Close. Treasurer—H. W. Whilden. Director—Hugh Davis.

Officers of the new association waited upon Fred C. Young, Friday afternoon, demanding \$212 (the hundred weight for the next six months) for milk with a test of 3.50 butter fat, at three cents more per hundred weight for each point above "that standard." They agreed to take three cents per hundred weight less for each point milk fell below the 3.5 standard. Then came the teamsters' demands which cut into the profits of the milk producers.

According to members of the association, more than 60 dairies owned by the Big Rock district are remaining outside the association. Of these the following, it was said yesterday, supplied milk to the Young company: Ole Olson, Robert James, Ed. Manning, William Meyer, and William Lewis. Efforts were being made today to get all of these men into the new association.

President Nelson was in Chicago today in conference with President Kettle of the state association regarding disposal of the entire Big Rock milk product in that city. Meanwhile milk producers are sending the supply to Chicago, claiming the cream and making butter.

The milk producers have given the Young company and milk haulers three days time in which to meet their demands and to adjust the hauling trouble.

Teamsters Remain Firm. Milk haulers and producers were still in a deadlock late today over the 5 cent increase asked by the former. The teamsters say that unless they are given 25 cents per 100 pounds for hauling the milk from the farms to the distributors they will go on strike. Members of the various milk producers' associations say they will not grant the increase.

It was announced at the offices of the Young Condensed Milk company today that only about 50 per cent of the daily milk supply was brought to Aurora yesterday and today. Some of the haulers refused to work while others said they would bring the milk to the dairies for old price until some settlement is reached. The dairy companies, however, will have enough milk on hand to supply all of their customers, they say.

The milk producers pay for hauling the milk to the distributors. Under the contracts recently signed the producers are paid \$2.12 per 100 pounds for milk delivered at the dairies. The dairy company's pay the haulers and then deduct the cost of several of the distributors, including the Pike dairy, are not affected, as they haul their own milk.

### SUPERVISOR WHILDEN DEFEATED IN CAUCUS

Supervisor E. C. Whilden of Big Rock, a member of the county board for 20 years, was defeated at a caucus held Saturday. E. C. Harbour, a farmer, was the victor. Supervisor Whilden did not make any effort to get votes, it was said.

### RIVER STEAMER AGROUND WITH 1,200 ON BOARD

[By Associated Press Leased Wire.] Evansville, Ind., April 2.—The excursion steamer H. L. Paul of the Streckfus line with more than 1,200 passengers on board, which went aground in the Ohio river last night about midnight, three miles below Cairo on the Kentucky shore, was released at 4:30 this morning.

### THEY TAKE TO RACING IN EARLY MORNING HOURS

THREE MEN, TWO OF THEM FURSUING, GET EXERCISE. The man was running. He was in his shirt sleeves. It was 2:45 o'clock Sunday morning. Two men ran after the man in the shirt sleeves. They said harsh things as they ran. It awoke neighbors. It was in Oak avenue between Illinois avenue and Plum street. The galloping men were headed toward town. The police said today that they had not heard of the retreat and the pursuit and it is presumed there were no casualties. Identities have not been learned.

### DOCTOR WITNESS ON A BRIDE'S AGE

The family doctor, at least a doctor who claimed he knew J. W. Reichard of Illinois, formerly of Aurora, testified today that Edna Farrington Congrave was only 15 years old when she married the late Luther Congrave in June, 1912. Congrave was 51. He left property valued at almost \$50,000, two-thirds of which will go to his wife. Her marriage is not annulled. The attack on the marriage is being made before Master in Chancery Morrison of the United States district court in Chicago. Edward Congrave, a brother of Luther, is trying to have the marriage set aside. Frank R. Reid, formerly of Aurora, is his attorney.

Dr. Reichard said Mrs. Farrington Congrave was born Jan. 12, 1897. Attorneys who are attacking the marriage seek to establish that Mrs. Congrave was forced into the marriage by her parents and that Congrave was not mentally balanced.

A. W. Barker of Aurora testified and disputed the testimony of the Rev. J. L. Backus of Aurora, the blacksmith-prayer, who married the couple, and testified February 14 that he believed Luther Congrave was perfectly sane at the time of the marriage. Mr. Barker said that in his belief Luther Congrave at the time of his marriage was not sane.

### TRY BARBAYLIA SUIT

The suit of Miss Clara Barbaylia against J. E. Saltberg, appealed from the court of Justice Cortes Dutton to the city court, went to trial before a jury in Judge Stanton's court this morning. Saltberg is a father of the plaintiff in the matter of the estate of the girl's brother. The father, who was administrator of the estate, disappeared several days ago and now his children are suing him for his share of the estate of the brother's estate. They claim \$150 each. Justice Dutton decided the case in favor of the children. There are three separate suits.

### PENFIELD CALLED HOME BUT DENIES ANY BREAK

[By Associated Press Leased Wire.] Vienna, Saturday, March 31, via London, April 2, 12:30 p. m.—The American ambassador, Frederic C. Penfield, confirmed today the impression here that he expects to return to Vienna as quickly as possible from his forthcoming visit to Washington. He said he might be gone for three months. His residence here will be kept open until his departure for Mr. Penfield will depart Wednesday or Thursday.

The news of Mr. Penfield's impending departure made a great stir here but the first impression was offset by a statement from the ambassador to the press that his trip to Washington was to be made on account of President Wilson's wish to consult him in regard to the general situation in Europe.

At the foreign office it was learned that no significance was attached to Mr. Penfield's visit to Washington other than that given by the ambassador himself.

### CURE FOR PROFANITY

"If every time you utter a profane word you will give a dime to the poor, you will soon cure yourself of the vicious habit," said Rev. F. A. Kilderry, assistant pastor of St. Mary's Catholic church, said last evening while preaching in his church. Father Kilderry said, "Change 32 into nickels. Carry the nickels with you. Every time you utter a profane word, fine yourself five cents and give the money to some worthy charity. When you realize that using profanity is costing you money, you will cure yourself of the practice."

Want Conference With Candidates. The United Voters' league will meet next Thursday evening in the city hall. The league plans to give attention to candidates for aldermen. The political action committee announced that it would like to confer with candidates for aldermen who they have not yet talked with.

### LABOR PLEDGES HELP TO WILSON

Preparedness Also Endorsed at Meeting of New State Body Here.

### NEXT MEETING TO PEORIA

Resolutions pledging unwavering loyalty to President Wilson and the country and endorsing preparedness were adopted yesterday by unanimous vote of the newly organized State Building Trades Council of Illinois, which held its first convention here Saturday and Sunday in Dillenburg hall.

The committee on resolutions was J. R. Paulie, Chicago; William Bear and Frank Melner, Aurora.

Peoria was awarded the next convention winning over Springfield. The next convention will be held September 30.

A constitution for the organization was adopted without debate. The constitution stated that the purpose of the organization is to encourage the formation of local union organizations and building trades councils in all cities; the adjustment of jurisdictional disputes, and to create harmony between employers and employees.

Delegates to the convention stated on the floor that they had attended many labor conventions, but had never seen one where an organization got such a good start and where there was such harmony as at the birth of the S. B. T. C. of I.

### POSTER STICKER BETTER REMAIN IN SECLUSION

RECRUITING OFFICER, POLICE SEEK PACIFIST WHO KNOCKS SOLDIER. Corp. A. J. Politz, recruiting officer, is looking for somebody in Aurora this week quite as strenuously as he is seeking recruits. Somebody has been pasting stickers on the United States recruiting posters, saying "So a Man Not a Soldier."

The first sticker was noticed on the poster at the corner of Broadway and Main streets and investigation showed that a number of other recruiting posters and even some merchants and bill board displays had been placarded with the pacifist argument.

"I have been a soldier since before the Spanish-American war," said Corporal Politz, "and if I find the person responsible for those stickers, he is going to have to prove that he is a man."

### REGULAR CITY COUNCIL MEETING THIS EVENING

A regular meeting of the city council will be held this evening at the city hall. It is probable that a resolution authorizing the appropriation of \$500 for a foot bridge over the E. J. & E. railroad bridge will be presented and passed.

### PLACE BASS IN RIVER

Employees of the Illinois state fish hatchery today put upwards of 25,000 young bass in the river between Oswego and Yorkville. Of this number about half were released in the water at Yorkville and between Oswego and Yorkville. The bass were full grown and averaged about one and one-half pounds each. A large crowd of fishermen watched the work.

The car arrived in the latter town this morning at 8:40 o'clock. Besides the bass a large number of crappies, pickerel and pike were put in the river at both Yorkville and Oswego. Deputy game wardens have been instructed to keep a close watch for poachers as it is expected that efforts will be made to get the bass out of the river by professional fishermen.

April First Babies.—Three "April Fool" babies were born at the Aurora City Hospital yesterday. A boy was born to Mrs. Jerome Loretti, 217 South Broadway, a girl to Mrs. A. C. Price, of Oswego, and a girl to Mrs. Wilbur Morry, 275 Maple avenue. Other babies born at the hospital within the last few days are: Mrs. and Mrs. E. G. Fennell, 323 Palms street; girls, Mr. and Mrs. W. F. Kille, 225 Fulton street; girl, Mr. and Mrs. Christie Corigan, 147 South LaSalle

## PACIFIST STREET PARADE BARRED IN WASHINGTON

(By Associated Press Leased Wire.)

Washington, April 2.—Pacifists and  
anti-pacifist pilgrims besieged official  
Washington today in an eleven  
hour effort to influence congress to  
ward their respective view of im-  
pending war with Germany. Street  
parading was denied by the police,  
but the program of each called  
for unorganized sidewalk process-  
ions to the capitol, where senators  
and representatives might be con-  
vinced for their peace or war ideas.

## KAISER IS DENOUNCED

(By Associated Press Leased Wire.)

London, April 2.—The German em-  
peror and Chancellor von Bethmann-  
Hollweg were bitterly denounced by  
Deputy Skabelloff, vice president of  
the council of workmen, soldiers and  
delegates, during a demonstration in  
front of the duma building, accord-  
ing to a Petrograd dispatch to Reuter.  
Deputy Skabelloff addressing the  
thousands of soldiers and civilians  
who took part in the demonstration  
said: "To the hypocritical greeting  
sent the Russian revolutionists by  
Wilhelm and Bethmann we can only  
reply with the bayonet. We cannot  
shake hands with German people who  
all they have rid themselves of the  
curse of Hohenzollern and Bethmann."

## WHERE IS THE MOTHER

with a child who is rundown, has pale  
cheeks or thin blood, who will not  
give that child the very thing it needs  
to start it growing and keep it going?  
For over forty years the concentrated  
liquid-food in Scott's Emulsion has  
been changing thinness to plumpness  
—changing poor blood to rich blood.  
There is nothing better for growing  
children—whether they are weak or  
well—than Scott's Emulsion, but see  
that you get the genuine Scott's.

Gives \$1,000,000 to  
Jaw War Sufferers

Julius Rosenwald, president of  
Sears, Roebuck & Co., Chicago.

Julius Rosenwald, president of  
Sears, Roebuck & Co., Chicago, has  
notified the American Jewish relief  
committee in New York that he will  
give \$1,000,000 to feed and clothe  
Jewish war sufferers. This is the  
largest individual cash contribution  
ever made to a charity. The relief  
committee has announced that \$10-  
000,000 must be raised immediately if  
2,000,000 Jews in the eastern war zone  
are to be saved from death. Mr. Rosen-  
wald will pay \$100,000 as each mil-  
lion is raised.

## URGE PATRIOTIC PUBLIC TAKE GOVERNMENT LOAN

(By Associated Press Leased Wire.)

New York, April 2.—"In view of  
much that has been said of the abili-  
ty of the banks to take a great gov-  
ernment loan," says a statement is-  
sued today by the National City bank,  
"it is well to emphasize the fact that  
it is far more desirable to have the  
loan taken by private parties. If the  
bank create new credit the effect  
will be to inflate the situation and  
increase the reserve requirements. More-  
over, the bank situation should be  
kept free and strong to deal with the  
business situation."

However the loans are offered  
they will come back thick and fast,  
and the American public should be  
prepared to take them as a patriotic  
service. Having for the loans should  
be in order here as it has been  
abroad."

## MILITANTS AND PEACE ADVOCATES GET TRAINS

(By Associated Press Leased Wire.)

New York, April 2.—Several thou-  
sand militant and nearly a thousand  
pacifist filled a number of special  
trains for Washington which left New  
York today beginning shortly after  
midnight. Altho the advocates of  
peace were outnumbered they got  
away first, eight hours in advance of  
the first train bearing those who  
styled themselves "patriotic pil-  
grims" and who favor war.

Each pacifist carried a white tulle  
and wore an armband inscribed "Keep  
Out of War." Prof. Ellery C. Stowell  
of Columbia university, who led the  
war pilgrims, said he expected nearly  
20,000 persons would go from New  
York on this errand.

## RECRUITS BREAK RECORD

(By Associated Press Leased Wire.)

Chicago, April 2.—March broke all  
recruiting records in Chicago since  
the Spanish-American war, according  
to estimates of army, navy and mar-  
ine corps officers.

Official figures were not made pub-  
lic, but it was estimated that the to-  
tal number of recruits in the three  
branches was about 1,200.

## AURORA DISTRICT B. Y. P. U. TO MEET

Park Place Church to Be Scene  
of Convention and Dinner  
Saturday, April 14.

Every Baptist Church of Aurora and  
Joliet to Be Represented—  
Program of Interest.

The convention of the Baptist  
Young People's union of the Aurora  
association will be held Saturday,  
April 14, at the Park Place church,  
Aurora. Every church of Aurora and  
Joliet will be represented.

Since the first of the year teams  
from Aurora and Joliet under the su-  
pervision of Ray Stearns of Aurora,  
president of the association, and Alma  
Potter of Joliet, vice president of the  
association, have been busy visiting  
every Baptist church in the district.

Enthusiasm is running high and the  
young people of Aurora are going to  
make it most interesting for their  
cousins.

The main social feature of the con-  
vention will be "rousing social and  
get acquainted time." In charge of  
Mrs. Copelin, Park Place; Mrs. Hines,  
Marion avenue; Mark Hobbs, Clair  
church; and John Harrell, Clair  
street.

The 8 o'clock dinner to be served  
by the B. Y. P. U. of the Park Place  
Baptist church promises another rare  
treat. Dr. Lounsbury is to be the  
toastmaster.

The state B. Y. P. U. president, Mr.  
Johnson of Princeton, will be present  
to give the convention suggestions  
and urge greater activity. Another  
feature of the afternoon session will  
be the open discussion. The young  
people will discuss at this time the  
advantages of entering into any defi-  
nite associational work.

Following is the complete program  
of the day:

10:30—Informal conference and  
prayer service for guidance and help.  
Led by the president, Ray Stearns.

11:30—Reports of societies, prog-  
ress of the work, etc. Business.

12:00—Adjournment for dinner.

1:15—Devotional service and song,  
charge of the first church, Aurora,

Choosing," the Rev. W. B. Morris,  
Illinois director of B. Y. P. U. and  
Sunday school work. Special music.

3:05—Free-for-all discussion. Sug-  
gested topics for discussion: (1) "Do  
We Want to Do An Associational  
Work?" (2) "Does the 'Flying Squad-  
ron' Pay?" (3) "Would Team Work  
in Evangelism Be Worth While?" (4)  
"Would a Separate Venture for Our  
Young People Be Advisable?" e. g.  
building a church on a foreign field  
and manning it, etc. Others may sug-  
gest themselves.

4:00—Adjournment. Housing social  
and get acquainted time by Aurora B.  
Y. P. U. All are urged to stay and  
make the most of this most profit-  
able hour of the session. Have a good  
time. Get acquainted.

6:00—Dinner at the Park Place  
church, served by the Ladies Aid.  
Toastmaster, the Rev. E. W. Lounsbury.

## MARK SQUARES IN TOWN VOTE

This Best Way to Avoid Throwing Out of Ballots in Tomorrow's Town Election.

Women will vote for three officers, assistant supervisor, highway commissioner, and school trustee at the township election here tomorrow. The polls will open at 7 o'clock in the morning and will close at 5 o'clock in the afternoon.

Special ballots have been printed for the women. As there are no candidates nominated for school trustees it will be necessary for men and women to write in the name of the person they wish to elect to this office.

How to Be Safe in Voting.

As was told in The Beacon-News recently the safest way to vote tomorrow is to go to the polls in the morning. In the field is only one full ticket in the field is to mark the squares in front of the candidate you wish to vote for. Ordinarily if one marks the party circle all candidates under the party circle are voted for except those candidates on other tickets whose squares are marked, but in tomorrow's election this will not be true because there are a number of offices under various headings to be filled and except on the people's ticket, candidates for all the offices do not appear. For instance, for justice of the peace, with five to be elected, there are five candidates on the people's ticket, three candidates on the independence ticket, none on the people's independent and two independent.

If one votes the people's party circle and then votes for a candidate or candidates on other tickets, the judges of election will not know which of the people's party candidates to take the vote or votes away from.

Would Lose Votes. Not knowing which candidates to take the vote away from, the judges of election would have to throw out the votes for all of the candidates for the particular office under the party circle which had been voted.

This was pointed out by The Beacon-News several days ago and was upheld in a ruling by Attorney General Brundage which City Attorney Kelley received today. What applies to justices of the peace also applies to constables and assistant supervisors.

In other words don't mark the party circle unless you want to vote the ticket straight.

If you want to vote a split ticket mark the squares, don't vote a party circle.

Following places tomorrow will be the same as in general election last November.

The Polling Places. Following is a list of the polling places by precincts: First—North Aurora village hall. Second—Galena street school. Third—Jones store, Illinois avenue and North Lake street. Fourth—Hillside school. Fifth—Harbour's livery. Sixth—No. 3 fire station. Seventh—South Lake street school. Eighth—Montgomery village hall. Ninth—Marion avenue school. Tenth—Reuland's garage, 419 Talma street.

Eleventh—No. 5 fire station. Twelfth—Ott. Brothers' grocery, Lincoln and Weston avenues. Thirteenth—City hall. Fourteenth—East High school. Fifteenth—No. 2 fire station. Sixteenth—Khur Brothers, New York and Union streets. Seventeenth—French school. Eighteenth—Loser's store, 624 Front street. Nineteenth—No. 4 fire station. Twentieth—Leche's store, Liberty and Root streets. Twenty-first—Weber's store, High and Pierce streets. Twenty-second—Mettel's store, Big Woods.

Endorsed by Bar.

The following ticket at tomorrow's township election has been endorsed by the Aurora Bar association:

For assistant supervisors, (vote for seven): Adam Komes, 242 Front street; Charles Connors, 532 South Lincoln avenue; Lyssander Hord, 139 River street, Montgomery; Peter A. Freeman, 206 Cedar street; James A. Grabois, R. F. D. No. 2, Aurora; Harry Paffers, 349 Jackson street; A. J. Erlenborn, 171 South Lincoln avenue. For justices of the peace (vote for five): W. C. Heise, 224 Fifth street; Cortez Euton, 52 Grand avenue; George H. Gorham, North Aurora; Roy L. Thompson, 215 New York street; James B. Kelly, 411 South Lincoln avenue. For constables (vote for five): Wilmer E. Orr, 536 Shams street; Alvin R. Kunde, 545 Second avenue; Amos Ashling, 94 South Lake street; Ed. D. Snyder, 12 North Locust street. For highway commissioner John N. Reckinger, R. F. D. No. 3, Aurora.

## CONGRESSMAN COWLEY IS FOR UNIVERSAL TRAINING

Asked by the Chicago-Tribune how he stood on universal training, Congressman Cowley of Aurora said: "I am unqualifiedly in favor of universal and compulsory military training. At any rate, for a period of 5 years until we have a trained force of sufficient size to defend the country. My opinion is that we are in much greater danger of attack after this war is over than now owing to the enormous wealth we have acquired by supplying the warring nations with things they needed. Therefore we ought to develop as quickly as possible a navy and an army of such size that we can protect ourselves. I shall vote at every opportunity along these lines."

In a Washington dispatch today Congressman Cowley is quoted as saying: "I am willing to vote to declare war; I am willing to vote to declare a state of war, but I do not want war. I am ready to go to the absolute limit in defending American honor and dignity, but I hope extreme measures may not be necessary."

## NAPERVILLE K. G. S. WIN FROM AURORA KNIGHTS

The Aurora Knights of Columbus lost yesterday in a tournament of games with the Naperville council at the Aurora club rooms, the latter thereby winning the trophy for the three-year contest. The Aurora council won the tournament out of three. The scores were, first year, Naperville 58, Aurora 54; second year, Aurora 40, Naperville 52; third year, Naperville 60, Aurora 52. Yesterday there were three games of pinocle, one of five hundred, one of bridge, one of cribbage, one of pool, one of three cushion billiards, one of straight rail billiards, one of pitch, one of checkers and one of rotation pool.

## WAGNER SALOON LICENSE TO GO?

Chief McCarty to Recommend Shutting Up Place for Being Open on Sunday.

Wagner Have Patrons' Saloon Largely Men in Place Were Cleaning Up, Officer Says.

Chief of Police McCarty announced this afternoon that he will recommend to Mayor Harley that the license of John N. Wagner, a saloonkeeper at 13 North Broadway, be revoked for violating the Sunday closing law. The mayor had not returned from Chicago at 2:30 o'clock this afternoon, and it is not probable that any action will be taken on the chief's recommendation until tonight. Wagner's saloon has been one which women have patronized largely.

Wagner and five other men were arrested at his saloon yesterday afternoon by Frank Byrnes, motorcycle policeman. The police say Wagner admitted the men to his place to sell them drinks, an open violation of the law. The names of the five men appear on the police records as Joe Verbeck, John Peterson, Peter Larson, John Brown and Thomas Smith.

The saloonkeeper and the five alleged men to his place to sell them drinks, an open violation of the law. The names of the five men appear on the police records as Joe Verbeck, John Peterson, Peter Larson, John Brown and Thomas Smith.

Wagner openly violated the law and as soon as the mayor returns, it will ask him to revoke the license. Wagner says that his porter quit and that he had the five men in his place cleaning up. He says he did not serve them any liquor.

## PLAN "CLEANUP WEEK" FIRST WEEK IN MAY

The first week in May will be announced today by Fred DuBell, superintendent of streets. The first day of the month will be Tuesday, and on that day the city teams and wagons will be sent out to gather up the rubbish. In the past it has been customary to set one day aside as "cleanup day."

Superintendent DuBell has decided to give a week to the work as it is impossible to finish it all in one day. Extra teams will be hired to assist the street department employees.

## CITY MARKET OPENS FOR SEASON TOMORROW

The city market in North River street will be opened for the season tomorrow. Marketmaster Fauth has received assurance from a large number of farmers that they will fill the market with eggs, butter and other farm products.

Market days this year will be the same as in the past, Tuesday, Thursday and Saturday. The city will charge a fee of 10 cents for each wagon, the same as in the past.

## WRITERS OF SOUTHERN CITY IMPRESSIONS

Hidden Wilson of Sugar Grove Impressed With Climate and Culture of Montgomery, Ala.

La City of Hero Worship—Tablets Mark Many Historic Spots of "Bread-Basket of South."

Glidden E. Wilson, on a tour of the south, has written recently an interesting letter of his impressions of Montgomery, Ala. His letter follows: "Editor Aurora-Beacon:—Dear Mr. Stephens: I thought it might be of interest to give you a glimpse of this cradle of confederacy at Montgomery, Ala. I came down with Albert McCallum and was delighted to meet Mr. and Mrs. Bert H. Thompson, who had been sojourning here. While this old plantation country is considered the richest in the south, it is little known in the north and I feel that I have discovered it; in fact, while I have been in other places in the west and north, the many advantages of this fertile country is apparent to any one who has farmed and raised live stock in the north. Montgomery has a population of about 20,000, is situated on a high bluff overlooking the Alabama river. Being a railroad and commercial center, Montgomery is the gateway from the north to the Gulf coast. The wonderful mild climate, summer and winter, fine golf courses, and its wealth of historic interest, have combined to make this city a most attractive one. One thing I noticed here, that the people here are hero worshippers and the history and traditions are carefully preserved. At the state capital a large star marks the place where Jefferson Davis took the oath of office of the southern confederacy. Wherever it is possible to place a tablet you will find one giving the dates and special information with reference to the particular spot. For example, right across from my hotel stands the building from which the message was sent to fire on Fort Sumter; on the next street is the old Jeff Davis home; another tablet commemorates an old historical spot where Lafayette was entertained years ago; the department of archives and history is really worth spending a day in. Our friend, James Shaw, at the library, would reveal in this place and, by the way, it may not be known to many Aurora people, but it is a fact that James Shaw in his early youth, edited a paper at Selma, right after the war, and that Pierce Burton was one of the men of the reconstruction period down here who made a new code for Alabama."

### Bread Basket of South.

This country was known as the bread basket of the south during the war. It furnished some of the most brilliant generals of the war came from this famous black belt.

The road systems of Montgomery county are known as the finest in the south.

Over 100 miles of boulevards radiating from Montgomery, and you think you are riding in Michigan boulevard in Chicago. We can learn a great deal in road building from these people down here. The country itself looks more like our own gently rolling prairies than any that I have ever seen before.

The most beautiful homes, old manor places, with winding drives, makes this district one of unusual interest. Before the war, these people lived like kings and queens. They had house parties that lasted a month at a time, they rode to the hounds, their sons and daughters were educated in the finest colleges and went into the professions, and the remarkable thing to me is that these wonderful prairies, although they have been farmed continuously to cotton and corn, without the addition of any kind of fertilizer, are producing alfalfa, four tons to the acre, corn from 25 to 40 bushels, oats from 25 to 30, and hay and clover from two to five tons. The reason for this is that this soil is an alluvial deposit during one of the glacial periods, depositing a blanket of black and grey loam filled with lime, and you can find sea shells and prehistoric marine life. We are paying money every year to lime our soils while they have it naturally here, 70 tons per acre feet.

The temperature here averages 62 degrees with precipitation of 51 inches. We have got a good golf course at Aurora, but they have two fine country clubs, 18 hole courses, and they are open to all tourists. I found there were some 1,000 automobiles registered in the city and 22 garages. They have 42 churches, fine park systems, excellent schools and high schools, and everybody here has got the good hand out for you. I never fully appreciated nor knew what southern hospitality meant until I came south. Down from the north the year, and it is fast becoming a competitor with Georgia and Florida for tourists.

Anyone coming south will do well to stop off at Montgomery and spend a few days here. You don't need to go to California for within 24 hours out of Chicago you are in salt water, with fine fishing, boating, with health, sunshine and flowers 245 days in the year.

Come on down, the weather is fine. Yours truly, GLIDDEN E. WILSON, Sugar Grove, Ill.

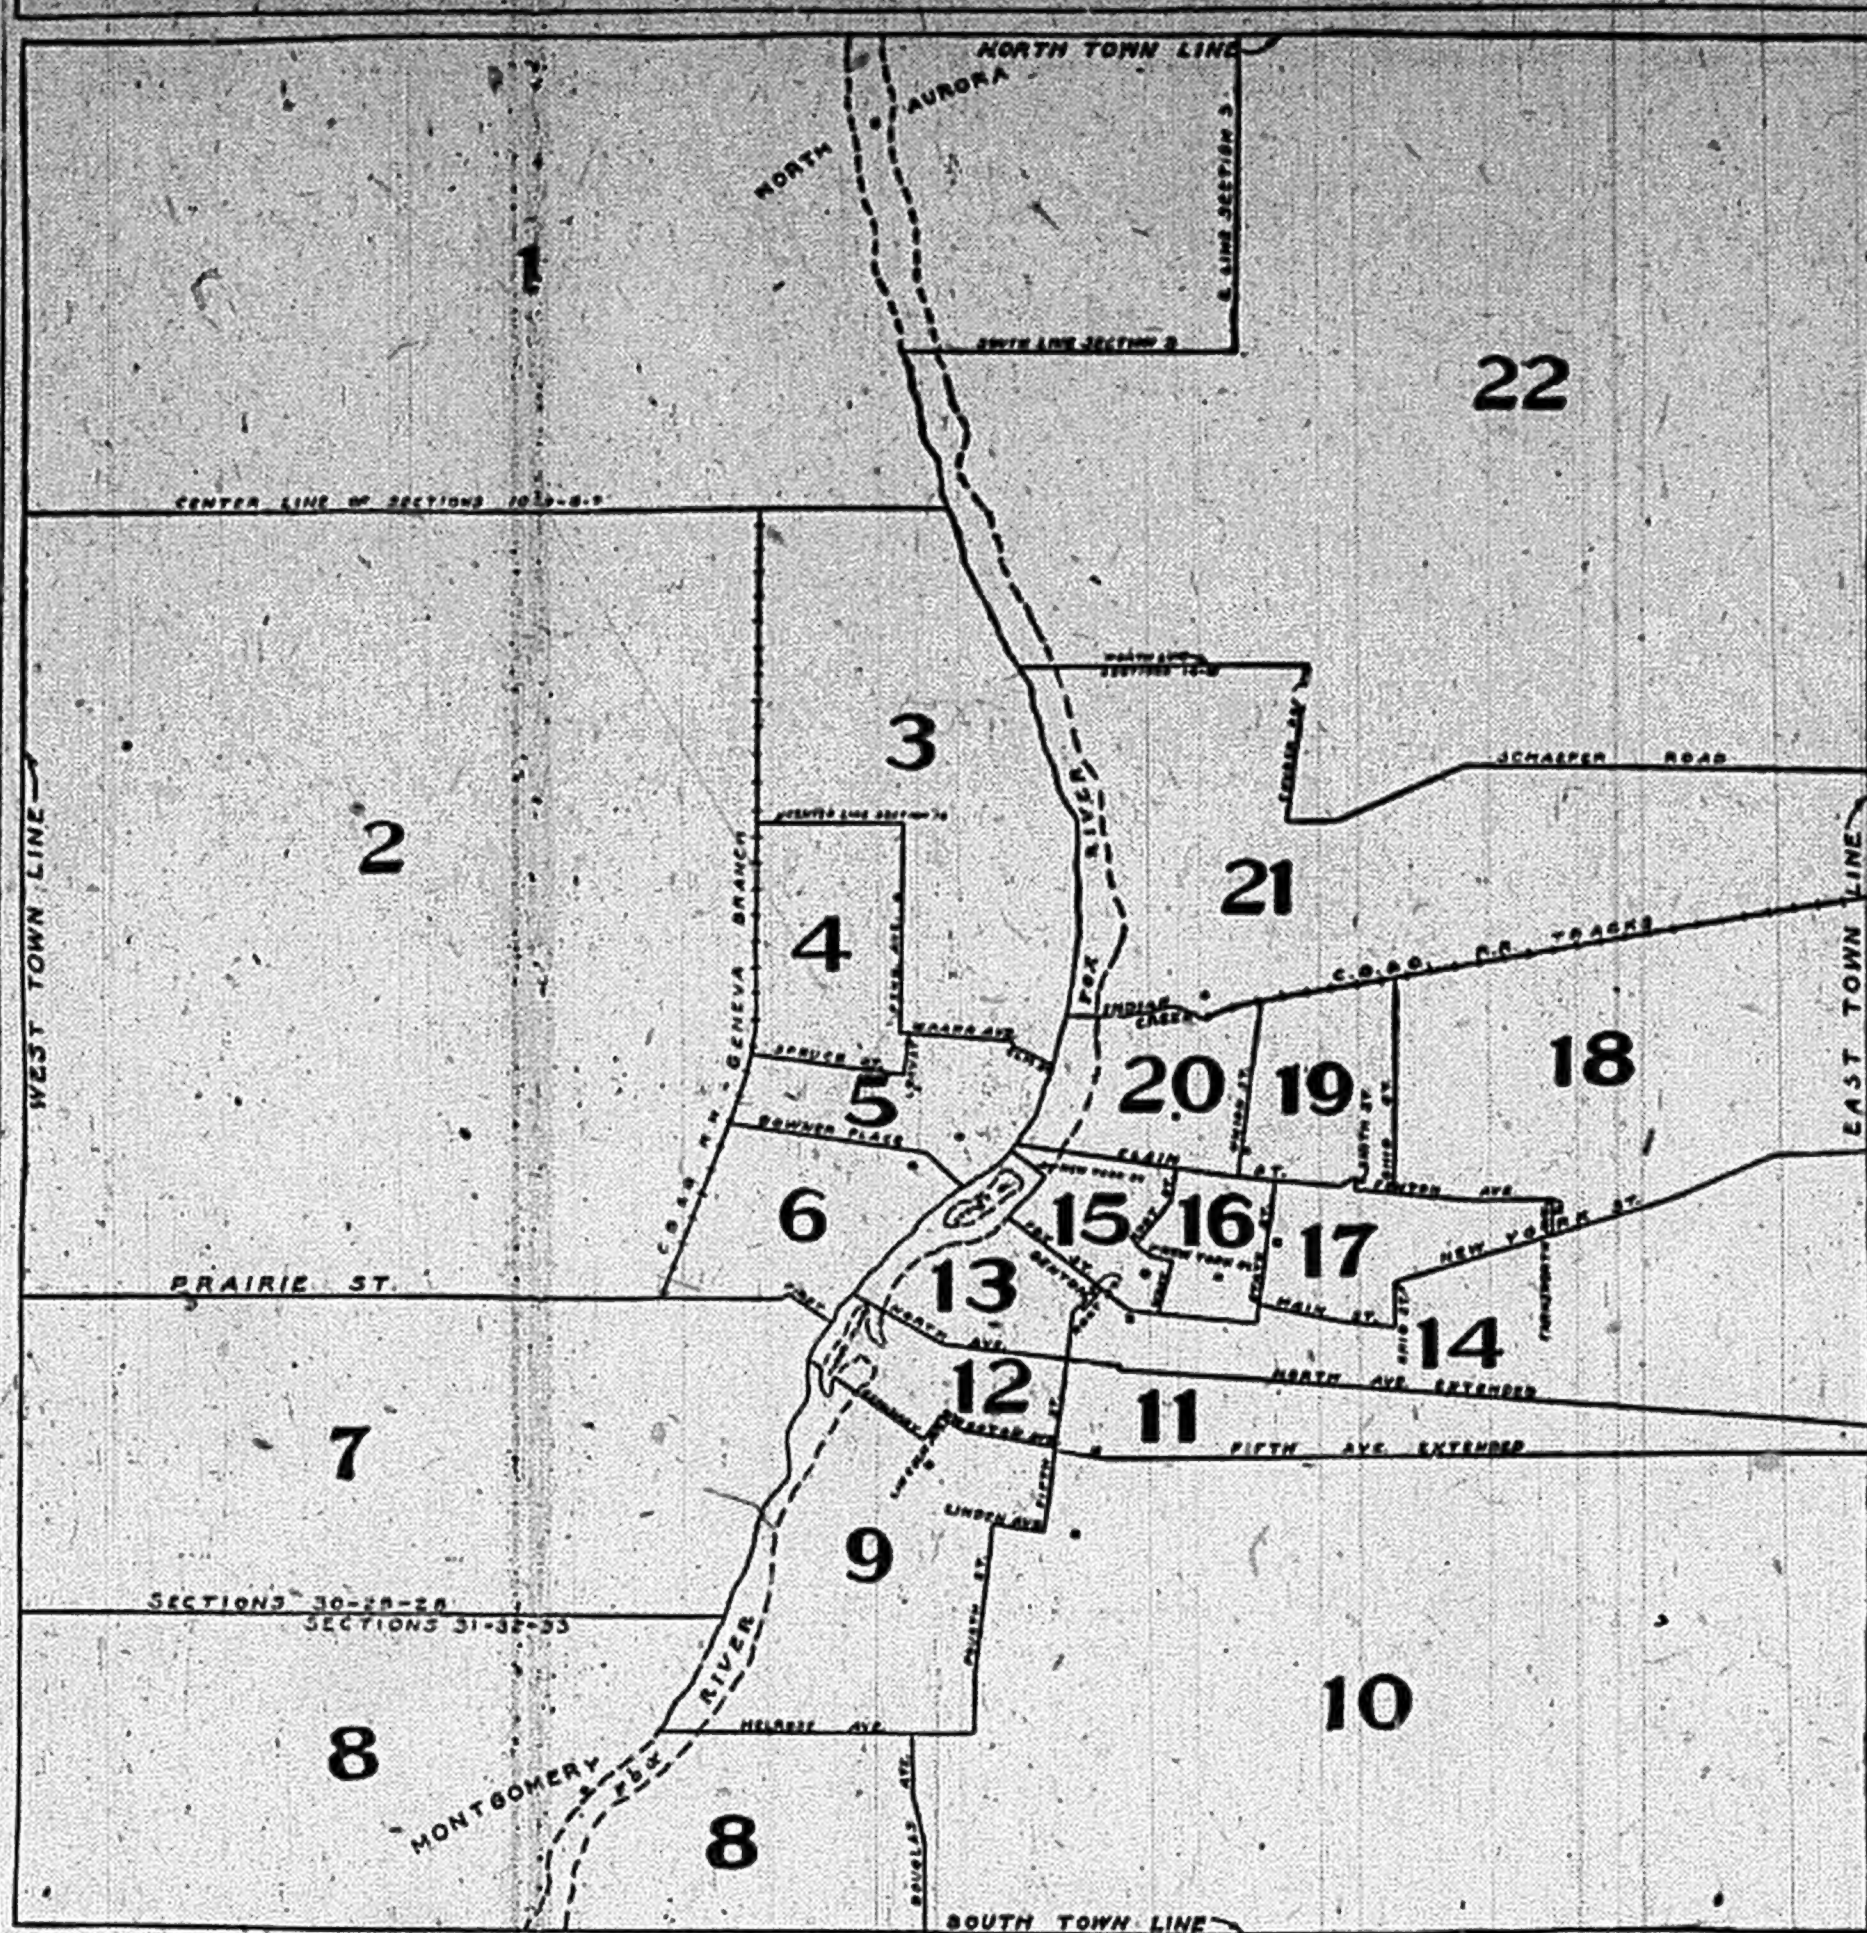

## REPORTS WAR AGREEMENT BETWEEN U. S. AND ALLIES

Terms of agreement to be made between the United States and the allies in the event this country goes to war with Germany and Austria have been drawn up according to Congressman-at-large M. M. Garland of Pennsylvania, who was an Aurora visitor this week.

The big features of the agreement are as follows: "The United States to furnish \$1,000,000 in money for the allies. "The United States to furnish its warships to the allies, to co-operate with the fleets of the allies. "The United States troops to remain in this country."

A quarrel can be repaired, but it should be remembered that 30 patches are out of every 100 show.

## WHY IS THE WORLD DIGGING TRENCHES?

Rev. G. F. Courrier Deplores Wasted Energies of Nations in Fighting One Another.

Says Christian Believes in Power of Love, Yet Carries a Sword—U. S. Must Have Purpose.

"Force may have its place but love is also a force," the Rev. Geo. F. Courrier, pastor of the Fourth Street Methodist Episcopal church, said in his evening sermon last night. His sermon subject was, "The Trench Diggers." "The world is saying we are Christians, we love Christ, and then the next day we go to war," he said.

"We church folk are pious. We believe in the power of love, yet we carry our swords. Most of us while believing in the power of God to protect us would feel better if a big navy was floating on the seas to the right and left.

"America must have a purpose, a feeling of responsibility or she will be like a ship without a rudder, conscious of energy and power, but not knowing where to go. If America could say to all the struggling people, 'We are here to help you,' what an impetus it would make for the uplift of the world. We have something of this spirit and it is growing. America is the dreamland of the children of Africa, where no man has ever come to help them.

Why Trenches? "The men in Europe are digging trenches now. But for what purpose are they trenches? The great wall was 1,800 miles long, 16 feet high and 20 feet wide, or big enough to built eight feet high and four feet wide to encircle the earth. What a great power the energy used to build this wall could have been for the uplift of the world if it had been used in an unbuilding task.

"The greatest things for democracy have happened in the last six months. What will happen in the next six months no imagination is

## MANY CHANGES COMING ON BOARD OF SUPERVISORS

Four members of the board of supervisors from Elgin township will be missing at the next meeting. Supervisor George Sills is not a candidate for re-election April 3. Assistant Supervisor Frank Joslyn was defeated for renomination. Philip Schlager and Arthur Besterfield, assistants, assigned were primary candidates for supervisor and were defeated. It has been reported that George Sills might be appointed assistant supervisor to fill a vacancy.

Supervisor Coit Spaulding of Blackberry, over 80 years old, has a contest with E. E. Warbe opposing him. The campaign against Mr. Spaulding is based upon his age.

Supervisor Whitlin of Big Rock is to have a hard contest, it is reported. Some members from other townships are being opposed in the town elections and there may be other changes. Supervisor Robert Hollister of Batavia also has a contest.

## EVENING CHIT-CHAT

(By RUTH CAMERON)

That Kind of Love.  
"Oh, yes, he really loves her," said my neighbor, "but he's the kind that never shows it on the surface or says much about it."

My neighbor looked scornful as I hastened to relieve her mind by qualifying that I should never be satisfied with that kind of love, and I think few women are. Of course it's good in crises, but how much part do we play in daily life?

How Can You Feel Love? He hasn't stopped loving you, loves you even if he doesn't tell you about it very often. But how can you feel sure? "Torture me still the fact that love died in its last expression," said a lover once. Presumably, between lovers the last expression would be comparatively recent. What if it were a month ago?

Gail Hamilton's "Love me and tell me so sometimes" are very wise words to my mind.

Just Office Hours to Keep the Heart Warm.  
Only why not make it "often" instead of "sometimes"? Why not? It isn't so hard to do, is it? Of course not too often, not often enough to resemble vain repetitions as the heathen do. Just often enough to keep the heart warm.

I know a widow with one son whom she brought up and sent to college single handed. He realized and appreciated the sacrifice she made for him and has been making it up to her ever since. He sees that she has every comfort, he sends her beautiful gifts. But I don't think that anything he does pleases her more than the way he sometimes shows his letters to her. "I love you, ma." He is not naturally demonstrative. It would be so easy for him to expect her to take for granted, to deduce it from his gifts and his thoughtfulness.

What Women Have to Be Remembered More Often.  
I think the spoken "I love you" means more to women than to men. I wonder why. Perhaps because men are more self-satisfied and so more ready to believe they are loved. Perhaps it is a relic of the days (now disappearing, I think) when "man's love was of man's life a thing apart, 'twas woman's whole existence." Anyhow it is to and the woman who acts upon it, it will make his married life happier and easier.

## YOUR HEALTH

(By JOHN B. HUBER, A. M., M. D.)

The healthy individual means a normal and a prosperous state.

What to Do for Typhoid.  
Of course it is absolutely imperative to have a doctor for a typhoid patient, who will give directions as to the conduct of the case. It may be, however, he ordered that the best preventive of typhoid fever is the anti-typhoid inoculation, to which in the presence of an epidemic certainly, all should submit. And during an epidemic it is better that milk and water should be boiled before their consumption. All worthless articles, especially badly soiled linen that have been in the sickroom should be destroyed; other clothing and bedding may be soaked in a 2 per cent carbolic solution, three ounces should be dissolved in a gallon of water, or steam sterilized by one's health department. The poor sufferer's vomit and his kidney and bowel discharges are put for an hour in the 2 per cent carbolic solution or in half an ounce of chloride of lime to a gallon of water, before they are cast away; less they become a means of infection in the community. The nurse's hands must be washed with tincture of green soap or iodine, and then dipped in the 2 per cent carbolic after every ministrations.

At the beginning of a case an ounce of castor oil is right; but in the second week and after suppositories should be used for fear of intestinal complications. For other medication alcohol, atropine, trional, codon and the like—the doctor alone can act, according to the individual needs of the patient as they arise. For reducing the fever we rely mainly on baths and cold packs.

QUESTIONS AND ANSWERS.

The Gums and Lead Poisoning.

I am constantly troubled with my gums. At first they became inflamed and are now continually discharging pus. I am also troubled greatly with heartburn. Do you think my trouble is due to my work? I have a pastime of lead poisoning. You must certainly change your occupation, at least for a time. Mouth cleanliness is very essential, by means of the tooth brush and dentifrice. A gargle of one-half teaspoonful of common salt to a tumbler of hot water will help. Take on rising, at noon and at bedtime a teaspoonful of the following mixture (get it of the drugist): Epsom salts, one ounce, dilute sulphuric acid one spoonful, water up to four ounces.

Frosty Season.

A year ago I was taken with a very severe cold in the head; the nose was constantly plugged up. Finally when the discharge came I had to blow my nose considerably. I seemed to inflate my ears. Then I became dizzy, and my hearing became greatly impaired. Next the trouble seemed to center in my forehead. The skin over each eye seemed red and inflamed and it seemed a heavy pressure existed. My forehead hurts, especially when I am lying down.

Answer—You are suffering from sinusitis, inflammation of the frontal sinuses. The cold in your nose has extended to those parts. It is imperative that you should be under the care of a physician skilled in the nose and throat. Otherwise you may become seriously ill.

An Electric Life Belt.

Submarine warfare has resulted in numerous improvements in life-preservers and life-boats. The passengers on any ship that sails the Atlantic today are likely to find themselves bobbing about in the icy waters with no support but a corked ship saved their lives by a number of small life-boats. Some time ago the electric flash lamp, this principle has now been incorporated into the latest life-boats by an attachment which carries the electric flash lamp as a part of its equipment. The lamp burns steadily as soon as the buoy hits the water, and serve to indicate the position of the person supported to any boat that may be searching for survivors.

keenly their responsibility in times like these and are at the same time proud of the prospect that scout training has fitted this large number of boys to help their country in time of war without engaging in any form of military operations.

One of the council members, for instance, Dr. Charles D. Hart, of Philadelphia, told of the scout mobilization plan which will enable the scout officials of Philadelphia to assemble 4,000 scouts of that city within two hours, to co-operate in the protection of property by accepting definite assignments for the purpose of giving alarm in case of danger, or collecting information as to supplies, or acting as messengers and orderlies, or by co-operating with agencies organized for relief work.

Similar mobilization plans have been made in many cities, and wherever there are scout troops the leaders will let the local authorities know of their willingness to aid in whatever needs to be done at home when our men go away to war.

Reports submitted to the national council showed that, contrary to the general impression, the Boy Scout program is proving to be especially attractive and adaptable to boys in rural communities, and indeed in numerous cases it is the only organized effort in behalf of boys outside the rural school.

"Twas ever thus." A movie actress who leaps from trains, bridges and buildings, risking her neck in many daring feats, fainted the other day at sight of a mouse.

XVII. The Forbidden Treasure (By Frederic J. Hawk)

Santo Domingo City, S. D. March 22nd (Jamaica). A storehouse of natural wealth successfully guarded from the enterprise and greed of all the world by its lack of stable government and intelligent laws.

There are, for example, excellent oil fields in Santo Domingo. A man from Boston some years ago bored a well in the hazy district which yielded him 250 barrels a day. He made a contract for the sale of his oil in Boston and took out a large quantity. Then he found that the export duty combined with the price of the oil, the barrels are rotting on the beach today.

The wonderful fertility of the Dominican soil has been alluded to in a former letter. This quality seems to be due to a mixture of the coral which constitutes a large part of the island with the leaf mould washed down by the rivers from the mountain forests. In this way humus and lime are combined to form a soil of the greatest fertility.

The most famous of Dominican resources, and the one about which the inquiries, is its gold. In the Cibao range and in the San Cristobal region there are places which have been known and worked for centuries. In the days of the Spanish occupation it is said that the invaders gathered a store of this treasure by trading with the natives. Little silver hawkbills for their fill of gold. Nowadays the poor women wash gold out of these same streams with wooden bowls, making a few dollars a week, and by a law of the land the common people are protected in their right to work the land.

The unenviable condition of the country has prevented their exploitation, on a large scale, and in all the centuries derive their golden burden has never been found. Hence the gold of Santo Domingo remains a bounty for the people.

The forest resources are another example of unused wealth. One of the largest Dominican imports is lumber, and yet there are extensive

forests of pine, oak and chestnut, as well as mahogany, satin-wood, lignum vitae and rosewood. These resources cannot be worked on a commercial scale because there are no roads. The forests along the principal rivers have been cut, and the others have scarcely been touched. Mahogany has been exported for centuries, and is still abundant. Likewise it is still brought out on the backs of burros, two billets about two feet long on each animal. There are also campeche, mora, coccoloba and other dyewoods.

Another striking and so far undeveloped resource is two mountain ranges of rock salt, said to be remarkably pure. They are in Barahona province. The same luxurious abundance characterizes everything in the island. Honey is stored by wild bees in the coral caves and hollow trees in such quantities that it is gathered for export. In the mountains and smaller islands, there are great herds of wild goats. Pigeons, parrots and wild fowl abound in many parts of the island. The rivers and bays are rich in fish. Wild fruits are abundant as those of the island.

Domingo is almost as rich as those islands, and in some places, castaways live luxuriously on the uncultivated bounty of nature.

Even the revolutionists and bandits are effectively guarded by its unique abundance of resources. The two systems of land titles, for example, makes it nearly impossible to acquire a valid title to any land in the public. This system derives from the days of the Spanish conquest, when the king of Spain made a great land grant to his favorites. For example, he granted to Juan Fernandez 200,000 acres of land lying between two rivers. Just settled in the general region indicated, and has ten sons and daughters, to each of whom he bequeathed 500 acres' worth of

land. They all equaled in various parts of the domain, and no division of the land being made.

Gradually these "patio titles" became divided among numerous heirs and purchasers. The original 200,000 acres of land, and so do with the value of the land, but to one one five thousandth of an area which has never been surveyed. Someone has said that this system might have been devised by the devil working in co-operation with all the lawyers in his infernal domain. It has been further complicated by the rise of a thriving local industry in the manufacture of counterfeit titles. One Dominican is well known to have made a fortune by manufacturing titles carefully aged with coffee stains. These counterfeit titles make a steady out of the American sugar and coffee interests, some of whom have already bought out three or four acts of claimants to their lands. Naturally their willingness to settle in this way has been a great stimulus to the fake title business.

The only way to trace one of these titles and test its validity, is by the records of the provincial clerks, in which every transfer is supposed to have been set down. By accident or design, nearly all of these records have been burned.

Take Up Claims Anywhere.  
Equally intelligent are the mining laws. Anyone may take up a mining claim anywhere, on a matter where land is on. He stakes it out by mentioning in his claim papers four well known points on the landscape. Thus a man wishing to claim a small vein of silver may be forced to stake half the island, using a mountain peak, a city and a bay as his corners. The mining rights to the entire area are now his in perpetuity, and he is under no obligation to work them.

Business is paralyzed just as effectively as agriculture and mining. The customs duties average about 50 per cent, so that the ordinary necessities of life cost almost twice as much as anywhere else. In addition to this every merchant must buy a license to do business and pay a percentage tax on all the business he does.

All of these absurd laws must be revised by a strong and honest government before the Dominican treasure house can be unlocked.

Steadily the scent grew stronger, and by the middle of the afternoon the sun was veiled by a film of smoke.

The flight of the wild things from the triangle of forest between the junctions of a stream and the river, rivers would have begun then, and the wind shifted. It was a fatal shift. The fire was raging from the west and south. Then the wind swept straight eastward, carrying the smoke with it, and during this breathing spell all the wild creatures in the triangle between the two rivers waited. This gave them a time to sweep completely across the forest to the forest triangle, cutting off the last trails of escape.

Then the wind shifted again, and the fire swept north. The head of the triangle became a death-trap. All thru the night the southern sky was filled with a lurid glow, and by morning the heat and smoke and ash were suffocating.

Panic-stricken, Kaskan searched vainly for a means of escape. Not for an instant did he leave Gray Wolf. It would have been easy for him to swim across either of the two streams, for he was three-quarters dog. But at the first touch of water on her paws, Gray Wolf drew back, shrinking like a cat on a hot tin roof, and he would face fire and death before water. Kaskan urged. A dozen times he leaped in and swam out into the stream. But Gray Wolf would come no farther than she could wade.

They could hear the distant murmuring of the fire now. Ahead of it came the wild things. Moose, caribou and deer plunged into the water, the safety of the opposite side. Out upon a white finger of sand, lumbered a black bear with two cubs, and even the cub took to the water, and swam across easily. Kaskan watched them, and whined to Gray Wolf.

And then out upon that white finger of sand came other things that dreaded the water, and Gray Wolf, despite its big fat paws, a sleek little marten, a fisher-cat that sniffed the air and walked like a child. These things that could not or would not swim outnumbered the others three to one. Hundreds of little ermine scurried along the shore like rats, their squeaking little voices sounding incessantly; foxes ran swiftly along the banks, seeking a tree or a windfall that might save the water for them; and Gray Wolf's own tribe—the wolves—dared take no deeper step than she.

(To be continued.)

(By C. S. Brainin, of the Columbia University Observatory Staff.)  
The planets Neptune and Saturn find places in this month's map. Saturn is still in the constellation Gemini, where he has been all winter, but has now taken up his direct easterly motion thru the zodiacal groups, which will slowly but markedly change the configuration of that interesting section of the heavens.

Neptune is to the east of Saturn, in so dim that his light is less than that of a star of the seventh magnitude and is therefore hopeless for our style of observation.

April will also afford us another opportunity to view the small planet Mercury, which is the nearest of all planets to the sun. It is this very nearness to the bright, all-encompassing disk of the sun that makes the observation of this planet difficult enough so that the most favorable occasions have to be utilized.

These occur when the orbital motion of Mercury has brought it as far as possible from the sun as seen from the earth.

On April 24 the planet will be at its greatest eastern elongation, so that for a very short time it will be visible when the sun is below the horizon. The word elongation is a technical astronomical term for angular distance from the sun as seen from the earth; therefore, this phenomenon means that Mercury will be as far to the east of the sun as it can get and will be an evening star.

On the twenty-fourth the angle between planet and sun will be about 20 degrees, and the planet will appear as a bright star in the twilight. It will be seen just below the horizon and about a fifth of the way up to the zenith. We do not, of course, need to confine our observations to the twenty-fourth alone, but should take advantage of the first clear day within a week preceding or following the twenty-fourth. Our map cannot show the planet's correct location, for it will have set well before 5 o'clock.

What We Knew of Mercury.  
The orbit of Mercury is the innermost of the planetary orbits. The mean orbital distance being only about 36 million miles, the next closest, Venus, is twice as far away from the sun. In accordance with the fundamental laws of planetary motion, Mercury, therefore, has the shortest period of revolution around the sun and completes this in a quarter of a year. For this reason, also, Mercury recedes from the sun as much heat per square yard as the earth, and this alone would make conditions on his surface impossible for man. Furthermore, we know that the planet is very low, showing the probable absence of any atmosphere or at most an extremely thin one. Again, at times when Mercury passes between the sun and our planet the disk of Mercury is seen with good definition and not surrounded by a halo of light, such as an extensive atmosphere would bring about by refraction.

It appears from the best observations so far that the rotation time of Mercury on its axis is the same as its period in the orbit around the sun, so that the same face, approximately, of the planet is always turned toward the sun.

Among the new constellations for this month are: Corvus, the Crow, and the long Water Snake, Hydra, with the red star Alphard glowing in solitary grandeur in a field devoid of other bright stars; the entire group of Boötes, with Arcturus, the lower group of Virgo, the Virgin, with the white first magnitude star, Spica, as well above the horizon; Hercules is a group which covers a great area of the heavens, but contains no very bright stars and is altogether inconspicuous. It contains, however, one of the most wonderful star clusters in the entire firmament, which is made up of not less than 50,000 stars, each one of itself a glowing sun of no small size. These star clusters differ from nebulae, which are made up of finely divided matter in a state of incandescence and not of such separate stars. Of course, many of the stars in the nebulae cluster in globular condensations. Between Hercules and Boötes is the beautiful coronet of stars, the Northern Crown, Corona Borealis.

On April 24 at 10:27 p. m. eastern standard time, the map is obliterated from view the fourth magnitude star Leonis, and on April 21, at 5:53 o'clock in the morning, the star Sigma Scorpii will receive the same treatment. This latter is a third magnitude star just west of the bright star Antares, and the phenomenon will occur when the constellation is about on the meridian, low down in the southern sky. A scientific fact of no small importance can be learned from these occultations; namely, that the moon has no atmosphere, for if it did, the disappearance of the star would be gradual and not so absolutely sudden.

## Mother's Duty to Her Child

Science Shows Pre-Natal Suffering Has Later Effect.

The subject of childbirth has demanded the attention of the world's best physicians and surgeons for centuries. Later day investigations prove that in reducing the suffering of the mother during the period of expectancy, the health of the coming infant is greatly improved.

Women tell of the safe, dependable preparation known as "Mother's Friend," which is composed of special penetrating oils. It is the prescription of a famous physician and a preparation of such a helpful nature as to be absolutely necessary to the expectant mother.

"Mother's Friend" has been found by thousands of mothers to relieve much pain and suffering at the time of childbirth. The period of expectancy is passed in comfort. All druggists supply "Mother's Friend."

Write to Bradford Regulator Company, Dept. C, 258 Atlanta, Ga., for valuable guide book for expectant mothers. This book is free to users of "Mother's Friend."

There is nothing more charming than a happy, healthy mother of children; and indeed child-birth under the right conditions need be no hazard to health or beauty. Lydia E. Pinkham's Vegetable Compound has brought joy to many children's lives by restoring them to normal health. Here is a notable case.

Omaha, Neb.—"I suffered from female troubles when I was seventeen years old. At eighteen I was married and my troubles were no better, so I consulted a physician who said that there was not much I could do and I could not have children. I read of Lydia E. Pinkham's Vegetable Compound and decided to try it, and it has proved worth its weight in gold to me for I am not only well but have a baby girl, so when I hear of any woman suffering as I have, I tell her of Lydia E. Pinkham's Vegetable Compound."—Mrs. J. HUGHES, 19 Maple St., Omaha, Neb.

In many other homes, young children, there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong. Advertisements.

## Healthy Happy Children

THE sudden attacks of fever in children are usually traceable to the condition of their bowels. A small dose of PLUTO Water will induce a thorough, complete movement, reduce their temperature to normal and restore them to rollicking good health.

**PLUTO**  
America's Physic  
You should teach your children the importance of complete and regular elimination. The best way to do this is to buy a bottle of PLUTO Water at your druggist's and keep it in your home.

## BATAVIA WOMEN URGED TO VOTE

Can Vote on Library Tax Issue as Well as Supervisor and Highway Commissioner.

All 'Factionless' Working Hard to Get Out Big Vote in the Town Election Tomorrow.

Batavia, Ill., April 2.—The women of Batavia have now taken a real interest in the town election tomorrow since Attorney H. N. Jones has announced that the women can vote on the increase for the library tax.

Town Clerk Seymour Carlson has had special ballots printed for the women to vote upon this question. The ballots will be in readiness and the women are all urged to get out and cast vote upon this important issue.

The library in Batavia is doing an important work in the city and it is thru the efforts of the library board that its present high state of efficiency has been reached.

The women can also vote for highway commissioners. Commissioner Jacob Oberweis, who has served in this office in a most efficient manner for 14 years, is to be re-elected.

The other office that the women can vote upon is that of supervisor. There are two candidates, Supervisor R. C. Hollister, who has been in the office for the past four years, and Joseph Moberg. Friends of Mr. Hollister strongly urge his re-election.

With the assistant supervisor, Fred Johnson, and a student of the west side, Hollister workers urge, the present supervisor should be retained in office under the old unwritten law of one of the offices for each side of the river. It is also urged in Mr. Hollister's behalf that owing to his business he has an office down town within easy reach of all.

Mr. Moberg, the other candidate for supervisor, is a well known contractor living on the west side.

The polls will open at 7 o'clock and close at 5 o'clock.

**Industrial Meeting.**  
The Batavia Industrial association will meet this evening at the city hall and all members are urged to attend. Now that the cold winter months have passed workers will begin at once on plans to secure new factories that are seeking sites.

Every member is urged to attend.

**Dean Pond in Address.**  
The Rev. Walter Pond, 33 years old, formerly of Aurora, a son of the late Dr. Frederick L. Pond, told of his work in the slums of Chicago in a recent Lenten sermon at Calvary church. He is the chief of the social settlement and social service work for the Episcopal church in Chicago.

He has as assistants in his work three deaconesses, four church sisters and several theological students.

"He told of how he and his assistants conducted 110 to 150 religious services monthly in the county jail, the bridewell, the several Cook county hospitals, the poor houses, the asylum for the insane, the homes for those afflicted with incurable diseases, refuge home for girls and boys, the tuberculosis sanitarium and other places. Some of the best places have separate institutions for the men and women."

"Many of the prisoners in the county jail are boys under 15 years of age," he said. "We find that even after they are placed in jail they do not realize the whirling of trouble. Some do not give us a respectful hearing. We find that those who go to the bridewell from the county jail are changed. They cooperate with us and take part in the service and behave admirably. They have begun to realize that they have offended society and have a sense of their sin."

"In the poor houses we find many who were once rich and well educated, and who saw better days. The stories behind many of the derelicts are sad ones."

"We are conducting in Chicago, clubs, guilds, free nurseries, free kindergartens, free grocery department, free employment bureau, a loan association, athletic clubs and parish dances."

"Not all down-and-outers are sinners. Some are more sinned against than sinning. Many of the men we meet have been overworked by their employers and they are broken down when they are freed from the jail, the bridewell and other institutions, get their jobs, give them street car tickets and some money and they always repay us, after they have a pay day."

"The Roman Catholic church takes care of its people splendidly and it is to its credit. The Protestant church people, I am sorry to say, are not generous in the care of their fallen ones."

"If each member of the \$5,000 Episcopal church has in the Chicago diocese would give 15 cents a year to our work, I wouldn't need to beg the thousands of dollars I do."

**Passion Week Services.**  
(Continued.)  
At the Christian church an hour will be spent Easter Sunday evening in the contemplation of the great act telling the story of the passion of our Lord. The Lowly Nazarene has been for centuries the inspiration of the great of earth. Great music has been written under the spell of His matchless life, and the artists of the world have been moved to immortalize the story upon the canvases.

It may not be our privilege to visit the galleries of the world and see the masterpieces of art, nor may we be able to enjoy the mighty music as it echoes among the vaulted cathedrals.

## CUPID TAKES FIRST ROUND FROM MARS

Kenneth Bennett of Geneva Would Have Become a Soldier Had Not Fiance Objected.

He Had Such Pronounced Views Against the 'Jagged Girls' to Quit Red Cross.

Geneva, Ill., April 2.—Despite pacifist-patriot differences, diplomatic relations between Miss Rowena Baslin of Highland Park and Kenneth C. Bennett of Geneva, who lives at the Sears-Roebuck Co. store in Chicago, have not been broken off. The wedding will take place at some future time not as yet announced.

Miss Baslin is at present a student at the University of Michigan and a militant pacifist. Last week Miss Baslin learned that her fiancé was thinking of joining the national guards. Miss Baslin hurried to an impromptu pacifist meeting.

"Sacrifice your hopes of marriage and a family rather than be the bride of a warrior," she said. "Don't encourage war. Every time you roll a bandage you prolong the war."

Then a reporter approached Miss Baslin to learn more about her views.

"That talk may lose you your beau if he hears about it," he suggested.

Miss Baslin did some quiet thinking and then sent a special delivery letter to Bennett, assuring him that his engagement held good, even if he joined the army.

Bennett, head of Miss Baslin's speech, he, too, thought quickly and decided he loved her more than he yearned for military glory. So he wrote to his sweetheart, assuring her he had given up all thought of going to the front.

The letters crossed.

Another Big Egg.  
Gaylord Fautsch, son of Mr. and Mrs. R. R. Fautsch, of Geneva, has entered a large egg in the egg contest. He reported that one of his white leghorn chickens laid an egg which measured 8 1/2 inches around the long way and 6 1/2 inches around the smaller way.

**Special Cars Offered.**  
The A. E. & C. railroad officials announced that they desire to furnish special cars whenever there is an exceptional large crowd at any given place.

Supt. Truman Curtis said today: "If a woman entertaining at her home and the crowd is extra large, and all wish to leave at the same time, a car will be furnished if advance notice is given to my office in Aurora."

"If there is an extra crowd of 25 or more to use an interurban car at a given time, the service will be doubled if notice is given in my office."

"We are anxious to serve the public and we have no way of knowing when cars are to be crowded if we are not notified that extra passengers are to ride."

**To Call New Pastor.**  
There will be a meeting of all the members of the Congregational church Wednesday evening in the church, to act on calling the Rev. C. D. Brower, of Glen Forest, to take the pastorate of the church. The Reverend Mr. Brower conducted services and preached at the church yesterday.

He is a good tall, 45 years old and married. He served for many years as pastor of Michigan churches. Should the Reverend Mr. Brower be invited and accepted, the long hunt for a pastor will be ended. Should the church not get him, they will continue hearing candidates for the pastorate. It was said today.

**Council Meets Tonight.**  
The Geneva city council will meet in regular session this evening. City officials have had a long session of business of importance to be considered at the meeting.

**Red Cross to Meet.**  
The Geneva Red Cross society will meet tomorrow in the roomy in the court house. The work will begin at 9 o'clock and continue until 5 o'clock. Every woman of Geneva is invited to help with the work of making bandages, etc., to be shipped to the National Red Cross society. If you can spend only an hour or two, the society people ask that you attend the meeting. The meetings are being held each Tuesday and Friday.

**Town Election Tomorrow.**  
The annual town election will be held tomorrow. There are contests for some offices.

**Social and Personal.**  
The musical given yesterday afternoon in St. Mark's Episcopal church by the combined choirs of the Episcopal churches of Batavia and Geneva, assisted by the Brinton Hill of Chicago, and L. E. Reader of Batavia as soloists in the singing of "The Crucifixion," by Stainer, was one of the successes of the season and was largely attended.

The Batavia lodge, Nordens Sons, has been invited by the Geneva lodge to participate in the coming year's camp meeting. There will be a regular business meeting, a program and refreshments.

**"BIRTH OF A NATION" IS BACK IN AURORA**  
It is important for intending patrons of "The Birth of a Nation," which commences a limited return engagement at the Fox theatre this afternoon, to take note that this is declared the farewell tour of this tremendously successful spectacle. There will be two performances daily at 2:15 and 8:15 p. m. tomorrow and Wednesday.

So many elements enter into the success of "The Birth of a Nation" that an enumeration of the merits of the production might prove tedious. But it should be again said that the musical accompaniment to the picture, embracing folk-songs, national anthems, engaging dance melodies and some of the finest compositions of the world's best composers, together with the creation of Joseph Carl Breit, has no small part in contributing to the entertainment.

I have no personal feeling or spite against my opponent, but I believe that in my business of contractor, and with an office on the island, I will be able to attend to the duties of supervisor, and if I am elected, I will devote all the time necessary to the requirements of that office, and I will, to the best of my ability, after a personal investigation of all cases as poormaster, expend the money of that office for the best interest of the taxpayers, and not for any business or political gain.—George (Joe) Moberg.

**Vote for**  
George H. Moberg for supervisor.—Adv.

## News in Brief

Arrested and Released.—Thomas Thomas, 37 years old, was arrested yesterday by Chief of Detectives Wirt after it was learned that Thomas had sold an automobile tire at the Funk garage, 47 South LaSalle street. The police have been searching for a sneak thief who stole a tire off the automobile of John Ingram. Thomas claims that he found the tire. But when the police learned that the tire had been sold again, Thomas was released from custody.

**New Lawyer in Town.**—A new lawyer arrived in town yesterday. He weighs nine pounds and is the son of Mr. and Mrs. D. Harvey Gussall of May street. Both mother and child are doing well. Attorney Gussall is a proud father.

**Hold Boy in Jail.**—Louis Denney, 13 years old, who confessed Saturday night to stealing brass from the A. E. & C. railroad car barn, is being held in the women's department of the city jail. He will be arraigned for a burglary of the city hall.

His father, who lives in Wood street, has not been home for two weeks and the police believe that he may be guilty of the several burglaries which were committed in the east side business district last week. He denies that he broke into any of the stores. The boy will probably be sent to the State Home for Boys at St. Charles.

**Visit.—The Bon Ton first.**  
Dr. F. W. Howard—Eye, ear, nose and throat. Counter block.

**Complaint of Chickens.**—Telephone bells at police headquarters were ringing constantly all day today and 50 per cent of the calls were from women who complained that their neighbor's chickens were running at large. All were instructed to go to the city hall and sign complaints under the ordinance which prohibits owners of chickens from allowing their poultry to wander out of their yards from April 1 to October 1.

**Very Fine.**—Red River Early Ohio seed potatoes at \$3.25 per bushel at Thon's Grocery.

**Last Day for Filing.**—Today is the last day for filing petitions for city officers. The office of city clerk Grommies will be open this evening. J. W. Greenaway, candidate for reelection as clerk of the city court, filed his petition late Saturday afternoon. So far he has no opposition.

**Master Millinery.**—Mrs. Jennie R. Smith, 237 Pennsylvania avenue.

**Prices Reduced.**—On hand painted china, Sugars and creamers, marbled jars and nut bowls; \$1.00; 8-inch plate, 25c; and a lot of 20-cent things for card prizes. At Mrs. Richardson's, 186 South Lincoln avenue.

**Buy Saurkraut.**—50 cents a gallon, 25 cents a quart. Thon Grocery, 16 North Broadway.

**NEW PLAINFIELD CHURCH SIDE ALTARS BLESSED**  
INTERESTING SERVICES HELD AT ST. MARY'S CATHOLIC CHURCH SATDAY.

Plainfield, Ill., April 2.—Two new side altars have been installed in St. Mary's church. They were given by Charles McKenna and Father Peter Lister.

The altars were blessed yesterday, after mass, a sermon for the occasion was delivered by the pastor. Eight candlesticks were also presented as decorations for the altars; four were presented by H. Bohland of Elmhurst, a friend of the pastor, and the other four by Mr. and Mrs. Emil Von Koch. Sister Mary Hensch and her sister, Mrs. Lucy O'Toole, have presented a beautiful statue of the Immaculate Conception. This statue has been placed in the high altar.

Mr. and Mrs. John Pennington and Miss Cora Moss were in Naperville Saturday to attend the opening of the First National bank in its new building.

Mr. and Mrs. Joseph Brockway have been called to Joliet by the death of her sister-in-law, Mrs. Orrin Nizer.

Mrs. Emma Foster and Mrs. Helen Gascoigne were in Joliet, Saturday, where they attended a meeting of the King's Daughters at the home of the society president, Mrs. Harry Wood.

A fine baby girl has come to the home of Mr. and Mrs. Percy Fong. Florence Lund of LaSalle is spending the week with her aunt, Mrs. Roy Anderson.

Fire was discovered at the Mary Zimmerman home in Commercial avenue yesterday. The fire department responded and put it out with but little loss. The fire started from a defective chimney.

Samuel Wright of Lombard spent Sunday with his grandparents, Mr. and Mrs. Jonas Bronk.

Lewis Ferrell of Joliet spent yesterday with her daughter, Mrs. Clara Bronk.

Mrs. Laura Barron, who has been a guest of Mrs. Van Stryker, has returned to her home in Joliet.

Mrs. Arthur Benson and children of Joliet are spending the week with her mother, Mrs. Harriett Phillips.

Mr. and Mrs. Oscar Pike of Somonauk have rented the Hoffman cottage in Lincoln way.

Pike is a telephone operator with office in Joliet. Mrs. Emma Evans spent Sunday with Mrs. Mary G. Newton of Chicago.

Mr. and Mrs. B. A. Dickens, who have been guests of their daughter, Mrs. Albert Glasgow, have returned to their home in Earlville.

**TAXI HITS STREET CAR**  
Mrs. Jennie Newton, 85 years old, of Mt. Pleasant, Iowa, was bruised and shaken up yesterday when a Coats taxi cab in which she was riding collided with a street car at the corner of Main street and Broadway. Mrs. P. Maxon of Aurora was also in the machine but was not injured. The machine was driven by H. L. Best, a chauffeur. The pavement was slippery and the car slid along the pavement and ran into the street car. Mrs. Newton's injuries were only slight and she did not need medical attention.

## COUNCIL TO MEET AT ST. CHARLES

Last Regular Meeting Tonight Before Election Expected to Bring Out Large Audience.

George Allen Controversy Expected to Come Up for Final Action—Mayor Unopposed.

St. Charles, Ill., April 2.—The regular meeting of the city council this evening, the last before election is likely to be well attended, as it is believed that the George Allen matter will come up in some way for further action.

Allen was city engineer. He asked for an increase in pay. The council did not grant him the increase. He resigned and the council voted to accept his resignation. It was away from the city service for a few days, and then Mayor E. M. Hunt re-engaged him, or at least he has been working since. Mayor Hunt said he would not be a candidate for reelection unless he could have for city employees men of efficiency he wanted.

Delegations of manufacturers and merchants waited upon Mayor Hunt and asked him to seek re-election, and they agreed to support candidates for aldermen who would support him in the city work. Mayor Hunt agreed to make the race.

An opposition ticket to the Mayor Hunt ticket was planned, but with the announcement from Dr. Charles A. Potter that he would not be a candidate, the opposition has melted away.

**Town Election to Be Quiet.**  
The annual town election will be held tomorrow. There is only one candidate for each office. The candidates will try to get out a large vote, because they fear that there might be a secret movement to have names written on the ballots and thus defeat them if a small vote is cast.

**Last Day for Filing.**  
The last day for filing nominating petitions by candidates for the school board will be April 11.

**Social and Personal.**  
Mr. and Mrs. Theodore Montgomery of Little Woods announced the birth of a boy, weighing 7 1/2 pounds, yesterday.

## SIBERIANS REJOICE OVER SLAV REVOLT

[By Associated Press Special Wire.]  
Petrograd, April 2, via London.—Charles H. Boynton, president of the American-Russian chamber of commerce, who arrived here today after a journey across Siberia, said that the revolution had been greeted with enthusiasm at every town thru which he had passed. Twenty returning exiles, chiefly socialists, were on board the train and were welcomed by immense crowds at the various railroad stations. Military bands were parading everywhere and speech-making by revolutionary orators went on day and night.

Mr. Boynton said that the greater part of the crowd was composed of soldiers wearing the red badge of the revolution. "I was impressed," he continued, "by the extraordinary unanimity of sentiment expressed on every side in favor of a republic. The news of the arrival of the exiles seemed to precede us and at every station crowds clamored for a sight of them and demanded speeches."

"One of the exiles, named Anisimov, a former member of the duma, who had been ten years in the mines, responded most frequently and in fact spent most of his time on the platform."

"The speeches of all the exiles breathed loyalty and patience. They asked everybody to turn and help defeat the common enemy."

Mr. Boynton reported that travel conditions were excellent and food abundant. He said that he had been told that improvement was noticeable immediately the new government took control.

## Dr. Coffee Coming to Aurora Tuesday.

Dr. W. C. Coffee, the oculist and aurist, will make his regular visit to Aurora at the Bishop hotel, Tuesday, April 2. He will see patients from 9 a. m. to 5 p. m. People suffering with eye diseases, falling sight, blindness, deafness, loss of hearing, head noises or catarrh may have a chance to consult him. Dr. Coffee has been in the practice of eye, ear, nose and throat diseases for over 15 years. He has treated cases around Aurora and vicinity for 25 years; restoring sight to blind people, restoring hearing, relieving head noises, straightening cross-eyes, removing adenoid growths, and curing catarrh. He is coming here to demonstrate his treatment. He invites people suffering with these diseases to get his opinion and try his treatment "one time free" to see if it will help them. It costs you nothing to have this experienced oculist and aurist to examine you and treat you once free. Send word to people you know suffering with these diseases.

Among famous visitors to Universal City lately were the celebrated French singer, Yvette Guilbert, and the tenor of the Chicago Opera company, Lucien Muratore. The two singers were greatly impressed with everything they saw at the picture city, and Madame Guilbert took a particular fancy to Joe Martin, the Orange-Outang. She wanted to know if he had a brother, whom she might adopt as a companion.

Edwin Stevens, with Tina Marshall as his leading woman, has completed a three-reel picture called "For Lack of Evidence," which deals with the adventures of a girl detective.

The L-Ko Company has completed a comedy version of the immortal "Uncle Tom's Cabin," which they will issue as a two-reel comedy, with Phil Dunham featured, and Lucille Hutton as "Little Eva."

# In Face of High Cost of Living ARMOUR Keeps Faith With Consumers!

TODAY, with the cost of living higher than most of us have ever known it, the policy of a concern of Armour's importance in the food world becomes a matter of national interest. And rightly so. It is expedient, therefore, that to judge with true American fairness, people should know the facts about what Armour is doing for them. Too often, heretofore, has judgment been passed on a basis of only half-truths.

To a true knowledge of the situation, it is necessary to first realize that Armour is not a producer of raw materials. Armour's sole interest in such production is to help the farmer make it greater.

The real work of Armour is to scientifically prepare and efficiently market the national yield. Rightly done, the result spells true economy to every American family.

On even the most superficial consideration, it becomes obvious that the cost to Armour of doing this work must be practically without change. And his is so. True, certain factors, such as reduced production, higher labor costs, etc., do affect these preparation and marketing charges somewhat, but never in proportion to the fluctuating market prices caused by varying production.

How small is the profit that Armour receives for performing this valuable necessary work may be realized when you consider that the amount retained by this organization is approximately but three cents on every dollar's worth of business done during the year!

And this profit has not increased with the increased price of foods!

The actual fact of the matter is that, since Armour in no way produces or controls production of raw materials, Armour cannot influence prices. Prices are the direct result of the inexorable Law of Supply and Demand.

This is not a statement of theory. It is a FACT. Today's beef prices prove it.

Armour's selling prices on dressed beef carcasses are, today, LESS than they were two years ago. For our fiscal year 1913-14, Armour's average selling price of beef per hundredweight was \$11.98; for our fiscal year 1915-16, it is but \$11.80. The reason is that beef production during this period has kept pace with demand.

And here it is highly significant to note that, for many years, the prices paid by Armour to the producer for every kind of meat have borne a continuously even relation to the prices charged by Armour for the meat after it has been prepared. The ratio between the two figures has hardly varied.

When the farmers' cost of producing meat has gone down, Armour's prices likewise have dropped. And never, unless farmers' prices have increased, have Armour's prices gone up.

Yet, even when production costs advance, Armour's prices do not always advance in proportion. Right at the present time, Armour is paying over 27% more for hog than in 1914. But Armour's selling price for pork chops (a barometer on other cuts of pork), shows an average of less than 10%.

Such instances, of course, are due to scientific utilization of by-product—another means by which Armour helps keep food prices at true-value levels for you.
